Chante	Created	Assembly	MakersLab OHS	NA	name: MakersLab OHS ,item_description: This module equips students with the knowledge and understanding necessary to perform the massage skills mentioned earlier effectively. Students will delve into the anatomy and physiology of the body, gaining insights into the intricacies of the human form. Additionally, they will learn about common diseases and disorders that may impact a client's suitability for treatment, ensuring they can make informed decisions about when massage therapy is appropriate. By the end of the module, students will possess a holistic understanding that enables them to provide safe and effective massage treatments.,item_version: V1,notes: Co-Requisite assemblies: 1) MakersLab Laser Cutting, 2) Makerslab CNC Machining, 3) MakersLab 3D Printing,item_date: 2024-02-23,created_by: 474,id: 1457	2/23/2024

Reagan	Created	Assembly	Autodesk 3Ds Max Essentials SLP	NA	name: Autodesk 3Ds Max Essentials SLP,item_description: The Autodesk 3Ds Max Essentials learning guide provides a thorough introduction to the Autodesk 3Ds Max software that will help new users make the most of this sophisticated application, as well as broaden the horizons of existing, self-taught users. The guide instructs you on how to effectively use the software interface and navigate through the scenes. It explores the creation of 3D objects and how to bring in objects from other software such as Autodesk Revit, AutoCAD, and Civil 3D. Additionally, it teaches you to prepare the scenes for renderings by adding materials, lights, and cameras. Finally, the guide covers an understanding of various renderers included	2/8/2024

Reagan	Created	Assembly	BOIL-1KM06 Boilermaker’s Drawings	NA	name: BOIL-1KM06 Boilermaker’s Drawings,item_description: This module comprehensively covers the essential skills and knowledge related to boilermaker's drawings and blueprint interpretation. It encompasses a wide range of topics, from the foundational understanding of interpreting drawings and boiler blueprints to more advanced concepts such as welding symbols and procedures and the use of computer-aided design (CAD) in boilermaker's drawings. Students will acquire the fundamental skills needed to read, interpret, and produce accurate boilermaker's drawings, setting a strong foundation for their application in real-world boilermaker tasks.,item_version: V1,notes: *Boilermaker,item_date: 2024-02-01,created_by: 305,id: 735	2/1/2024

Reagan	Created	Assembly	FDBE00S Figure Diagosis and Body Electrical Treatments	NA	name: FDBE00S Figure Diagosis and Body Electrical Treatments,item_description: In this module, students will explore figure diagnosis and body electrical treatments, focusing on essential skills and knowledge. Students will learn how to conduct relevant tests and select, use, and adapt products and equipment to cater to the specific treatment needs and body types of their clients. This includes becoming proficient in the use of Electro Muscle Stimulator, Galvanism, Microcurrent, Vacuum Suction, and Mechanical Massage (G5). By the end of the module, students will be equipped to provide effective figure diagnosis and body electrical treatments, enhancing their clients' well-being and appearance.,item_version: V1,notes: *Diploma in Body Treatments,item_date: 2024-02-01,created_by: 305,id: 1457	2/1/2024
