					end of this module, students should have a comprehensive understanding of 4IR trends and their impact on various aspects of society and businesses. Students should emerge with important skills such as effective communication, teamwork, customer service, and adaptability to future technological advancements.,item_version: V1,notes: *Created 16/05/2024,item_date: 2024-05-16,created_by: 474,id: 2240	
Chante	Created	Assembly	ROPA-1KM08 - Introduction to RPA Governance, Legislation and Ethics	NA	name: ROPA-1KM08 - Introduction to RPA Governance, Legislation and Ethics,item_description: This module introduces students to various RPA governance, legislation and ethical concepts. At the end of this module, students should have a comprehensive understanding of the legal frameworks governing the workplace, including their implications for both employers and employees. Additionally, students will have acquired knowledge of performance management principles, business planning concepts, product costing, and ethical behavior in the workplace, and they should demonstrate the ability to apply these principles effectively to enhance organisational practices and decision-making processes,item_version: V1,notes: *Created 16/05/2024,item_date: 2024-05-16,created_by: 474,id: 2240	5/16/2024
Chante	Created	Assembly	ROPA-1KM07 - Robotic Process Automation	NA	name: ROPA-1KM07 - Robotic Process Automation,item_description: This module aims to introduce students to Robotic process automation. Students will learn how to navigate the chosen RPA platform effectively, understand its functionalities, develop automated workflows, and deploy them to streamline business processes. At the end of this module, students should have a solid grasp of using a specific RPA toolkit or platform for creating and deploying automated processes. ,item_version: V1,notes: *Created 16/05/2024,item_date: 2024-05-16,created_by: 474,id: 2240	5/16/2024

Chante	Created	Assembly	SODE-1KM12 - Design Thinking Principles for Innovation	NA	name: SODE-1KM12 - Design Thinking Principles for Innovation,item_description: This module focuses on building an understanding of the fundamental design thinking principles, and their application in the workplace. Students will be introduced to the fundamentals of design thinking, including the human element, creativity, innovation, and the design process. They will learn about the design thinking methodology and how to apply it effectively to solve complex problems. Students will develop mathematical thinking skills for problem-solving, covering basic math concepts and the conversion between decimal and binary systems. At the end of this module, students should demonstrate the knowledge and skills required to apply design thinking principles, and mathematical thinking effectively in various workplace scenarios.,item_version: V1,notes: *Created 15/05/2024,item_date: 2024-05-15,created_by: 474,id: 2213	5/15/2024
Chante	Created	Assembly	SODE-1KM11 - 4IR and Future Skills	NA	name: SODE-1KM11 - 4IR and Future Skills,item_description: This module focuses on understanding the impact of the Fourth Industrial Revolution (4IR) on communities, individuals, and businesses, emphasising essential skills for future needs. The module will introduce students to 4IR trends, computing skills, future competencies, business impact, interpersonal skills, communication, written and presentation skills, teamwork, job roles, and	5/15/2024

Chante	Created	Assembly	CYAN-1KM09 - Introduction to 4IR and Future Skills	NA	name: CYAN-1KM09 - Introduction to 4IR and Future Skills,item_description: This module focuses on understanding the impact of the Fourth Industrial Revolution (4IR) on communities, individuals, and businesses, emphasising essential skills for future needs. The module will introduce students to 4IR trends, computing skills, future competencies, business impact, interpersonal skills, communication, written and presentation skills, teamwork, job roles, and customer interactions. At the end of this module, students should have a comprehensive understanding of 4IR trends and their impact on various aspects of society and businesses. Students should emerge with important skills such as effective communication, teamwork, customer service, and adaptability to future technological advancements.,item_version: V1,notes: *Created 10/05/2024,item_date: 2024-05-10,created_by: 474,id: 1457	5/10/2024
Chante	Created	Assembly	CYAN-1KM08 - Data and Databases Vulnerabilities	NA	name: CYAN-1KM08 - Data and Databases Vulnerabilities,item_description: This module will introduce students to data concepts, focusing on vulnerabilities and security. Students will gain a comprehensive understanding of data, databases, processing, analysis, and visualization. Topics include storage, access methods, SQL, data scraping, and analysis tools. Students should have a demonstratable grasp of data fundamentals, processing techniques, database management, and visualisation. At the end of this module, students should be able to identify data vulnerabilities, analyse data, and visualise it effectively for decision-making.,item_version: V1,notes: *Created 10/05/2024,item_date: 2024-05-10,created_by: 474,id: 1457	5/10/2024

Chante	Created	Assembly	COTE-1PM04 - Provide Support to End-Users	NA	name: COTE-1PM04 - Provide Support to End-Users,item_description: "This module aims to equip students with the skills to provide support and advice to computer users effectively. Students will learn how to explain and demonstrate new features after installations or program upgrades, providing brief training for successful deployment. Additionally, they will develop skills in offering ongoing support for user issues. As aspiring computer technicians, students will also explore remote support strategies and working from a desk to resolve issues over the phone. They will also gain hands-on experience visiting users to address problems that require on-site resolution. At the end of this module, students should confidently demonstrate the ability to provide support to end-users. ",item_version: V1,notes: *Created 05/09/2024,item_date: 2024-05-09,created_by: 474,id: 1917	5/9/2024

Chante	Created	Assembly	ELEP102 - Electrical Engineering Project 102	NA	name: ELEP102 - Electrical Engineering Project 102,item_description: This module has been designed for Diploma students to be exposed to the creative side of engineering problem solving, design and thesis in electrical and electronic engineering projects. Through individual and teamwork, learning in electrical and electronic engineering environment, the students will be able to appreciate the role of engineering in solving technically challenging problems. To achieve this goal, our students must develop proficiency in fundamentals of engineering and natural science. Furtheremore, students should gain a comprehensive knowledge of a broad range of industry needs and an ability to address those needs under a variety of constraints. In this way our students will be able to develop graduate attributes that are based on academic excellence and are aligned to the profession. This module provides the students with the ability to plan, analyse and synthesis solutions for the project.,item_version: V1,notes: *Created 06/05/2024,item_date: 2024-05-06,created_by: 474,id: 1457	5/6/2024

Reagan	Created	Assembly	Effective Communication Skills (Accredited) SLP	NA	name: Effective Communication Skills (Accredited) SLP,item_description: Making human connections in a technology-driven world! In the 21st Century, men and women continually lurch between the impersonal nature of technology and the intimate reality of human relationships. There are many situations – often those involving escalating conflict, sensitive feelings, high priority, important authority, or a great deal of money – that demand business people to take the time and trouble to get into the same room to	4/23/2024

					exchange information. Or at least they try to simulate face-to-face communication when individuals are in remote locations. Make no mistake about it. Face-to-face communication skills remain one of the primary roads to career success, even in this computer age. The Effective Communication Skills training course will lead the learner to a greater understanding of using communication techniques effectively.,item_version: V1,notes: *Accredited course for students only taking this course (LMS),item_date: 2024-04-23,created_by: 305,id: 1596

Monique	Created	Assembly	AMI Training - Moniqué Missouw	NA	name: AMI Training - Moniqué Missouw,item_description: This module equips students with the knowledge and understanding necessary to perform the massage skills mentioned earlier effectively. Students will delve into the anatomy and physiology of the body, gaining insights into the intricacies of the human form. Additionally, they will learn about common diseases and disorders that may impact a client's suitability for treatment, ensuring they can make informed decisions about when massage therapy is appropriate. By the end of the module, students will possess a holistic	4/10/2024

					Accredited),item_version: V1,notes: This learning programme is intended for all persons who need to describe the relationship of junior management to other roles. This Unit Standard specifies the knowledge and skills required to understand the relationship between junior management and other management roles in the organisation. The second part of this programme is intended for all persons who need to apply leadership concepts in a work context. This Unit Standard will be useful to learners, working in all sectors of the economy, community organisations or Non-Governmental Organisations (NGOs). It will enable learners to gain insight into the role of leadership within a work context, and thus providing them with the skills and knowledge to add value to their job.,item_date: 2024-03-25,created_by: 305,id: 1596

Reagan	Created	Assembly	FITU-1PM02 Workpiece Fabrication with Power Tools and Equipment	NA	name: FITU-1PM02 Workpiece Fabrication with Power Tools and Equipment,item_description: The module is designed to equip students with the essential knowledge and practical skills needed for the systematic disassembly, cleaning, and thorough inspection of various mechanical sub-assemblies commonly found in industrial settings. This module covers a range of critical topics, including planning and preparing for sub-assembly disassembly, disassembling, cleaning, and inspecting gearboxes, pumps, brakes, clutches, drives, bearings, lubrication systems, hydraulic systems, pneumatic systems, and valves. By successfully completing this module, learners will acquire the competence required to maintain and assess the condition of mechanical components and systems, ensuring the safety and efficiency of industrial machinery and equipment.,item_version: V1,notes: *Fitter & Turner *Workbook loaded 08/03/2024,item_date: 2024-03-08,created_by: 305,id: 1985	3/8/2024

Reagan	Created	Assembly	FITU-1PM01 Basic Handcrafting and Workpiece Fabrication	NA	name: FITU-1PM01 Basic Handcrafting and Workpiece Fabrication,item_description: This module aims to provide students with fundamental knowledge and practical skills in various aspects of engineering preparation and fabrication. This module covers a wide range of essential topics, including planning and preparation for component fabrication, selecting and maintaining engineering hand tools and measuring instruments, interpreting and producing basic engineering drawings, identifying engineering materials and their applications, marking-off components, fabricating and fitting gaskets, performing filing and sawing work on pieces, fabricating and fitting keys, cutting threads with stocks, dies, and taps, and reaming parallel and tapered holes. By mastering these skills, learners will be well-equipped to engage in basic engineering tasks and contribute effectively in engineering and fabrication environments.,item_version: V1,notes: *Fitter & Turner *Workbook loaded 08/03/2024,item_date: 2024-03-08,created_by: 305,id: 1984	3/8/2024

Your study manual is a vital tool designed to condense complex information into manageable chunks, serving as your roadmap through your course material. Structured for optimal learning, it enhances comprehension and retention through active engagement with summaries, diagrams, and practice questions. Accessible in digital formats, it offers flexibility to study anytime, anywhere, complemented by additional resources for a holistic learning experience. Embrace your study manual as your guide to academic excellence, unlocking your full potential along the way.	3/7/2024
