

Overview

The **Higher Certificate in Project Management: Operation/General Management NQF5** will provide students with an industry—focused vocational skillset that focuses on the set of tools and techniques used for the initiation, planning, execution, monitoring, and closing of projects, which are applicable across a range of various problem domains. The qualification will enhance work readiness and provide entry into the field. A Project Manager applies knowledge of project management to achieve **project objectives** in a **specific field of application**.

Students will be introduced to various **management processes** relevant to effective **project management in any environment**. At the end of this module, students should have a comfortable grasp of **risk management, supply chain management and operation management** with an in-depth understanding of the critical variables, definitions and execution requirements of each.

Features And Benefits

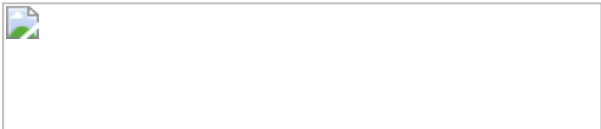

- This programme is recognised by **PMSA (Project Management South Africa)**. On successful completion of the PPM, suitable candidates may be eligible to apply for the professional designation of **Project Manager (PM)** conferred by **Project Management South Africa (PMSA)**. PMSA is the SAQA recognised professional body representing the interests of project managers across sectors.

Participate in our group-wide community engagement project known as [10Percent](#) , where students across all levels of study and all disciplines, come together to form new multidisciplinary teams, and apply their design, business, marketing, and other expertise with rea-lworld community-based intervention projects.

- Get a free **Office 365 Education A1 license**, valid for the duration of your studies.

- Students get access to our online recruitment portal, exclusively available to **AIE graduates**. Visit www.recruitgraduates.co.za for more.
